

## ACTIVITIES OF THE ASIAN SCHOOL OF NUCLEAR MEDICINE

The Asian School of Nuclear Medicine (ASNM) held a Session on Education & Training in conjunction with the 9th Congress of the Asia Oceania Federation of Nuclear Medicine and Biology (AOFNMB). This session generated a lot of interest by way of attendance and in the number of comments during the plenary session. The success of this maiden activity of the ASNM in a regional congress augurs well to the future of the school especially if the member countries help one another and do their part for the sake of education and training. The reactions and feedbacks after the invited presentations enlivened the session. The ASNM Academic Senate contributed in developing future activities for the school. Attached are a summary of the [proceedings](#) and the [minutes](#) of the executive meeting of the Academic Senate.

The ASNM looks forward to the WFNMB congress in South Africa in 2010 and the AOFNMB congress in Iran in 2012 for the next academic assemblies. Meanwhile, its Continuing Professional Education series of seminars for physicians and technologists will start with Indonesia in December 2008, Vietnam in May 2009 and Thailand in November 2009. In between, information will be sent periodically from the desk of the Dean of the ASNM, Prof Teofilo O.L. San Luis, Jr. on what ASNM is doing for the region. Please keep in touch with the dean ([tolsanluis@gmail.com](mailto:tolsanluis@gmail.com)) and the Executive Director, Dr Thomas Pascual ([thomasneilp@yahoo.com](mailto:thomasneilp@yahoo.com)) on whatever matter you wish to bring to their attention.

10th Congress of the World Federation of Nuclear Medicine and Biology  
Cape Town 18 – 23 September 2010
