

WHO is organizing the **Third International Conference on Children's Environmental Health** to be held in **Busan, Korea**, on **8 -10 June 2009**, kindly hosted by the Korean Ministry of Environment. The main output of this conference will be the "Busan Commitment" based on the conclusions & recommendations of the thematic sessions.

One of the thematic sessions will address Radiation & Children's Health particularly focusing on the medical use of radiation in paediatrics (i.e. justification of procedures & optimization of radiation protection).

The organisers are planning to hold a pre-conference workshop on Sunday 7 June "Towards safer use of radiation in paediatrics" as a kick-off event to address children's protection under the Global Initiative on Radiation Safety in Health Care Settings. Interested persons are kindly requested to inform the organisers by 1 May if they would be interested in joining a working group on this topic and if they are planning to attend the Conference.

[See attached the second announcement of the Conference.](#) More information is available at <http://www.ceh2009.org>. Please take into account that the deadline for abstract submission has been extended up to **13 March 2009**.
