

# International Atomic Energy Agency

IAEA representative at Executive Board WFNMB: Diana Paez

The International Atomic Energy Agency (IAEA) and the World Federation of Nuclear Medicine and Biology (WFNMB) have established Practical Arrangements for cooperation in diagnostic and therapeutic nuclear medicine. Activities include training professionals from IAEA Member States, developing e-learning materials, and identifying high-level clinical centers for training and research. The WFNMB will provide experts and infrastructure support, while the IAEA will facilitate participation in educational activities for capacity building in low- and middle-income countries.
